

If you have lost a loved one in the UK since March 2020  
and would like to share your experiences of  
bereavement during the pandemic:

**Please consider taking part in our bereavement survey**

[www.covidbereavement.com](http://www.covidbereavement.com)

Cardiff University and the University of Bristol are conducting a **survey** looking at the **grief experiences** and **support needs** of people **bereaved** during the **pandemic**. We would like to increase participation among people from **minority ethnic groups**, especially given the terrible impact Covid-19 has had on many communities. We would like to give **voice to your experiences** and identify **ways to improve the support available for** people who are bereaved within these communities.

If you have lost a loved one to COVID-19 or any other cause of death during the pandemic, and would like to share your experience in our survey, please [click here](#) or visit [www.covidbereavement.com](http://www.covidbereavement.com) to take part or find out more.

Alternatively, contact Emily Harrop: [harrope@cardiff.ac.uk](mailto:harrope@cardiff.ac.uk),  
tel: **02920 687184** for further information or a paper copy of the survey. Upon request, the survey can also be translated into community languages or conducted over the phone.

**Thank you!**
