I am thrilled to let you know we are finally launching the FinTech Wales Coding Academy!!!

The initial pilot is an 8-10 week intensive programme and is starting on Monday 4th April. We hope to achieve great things with the pilot and then continue to deliver the Coding Academy on a regular basis.

Developed in close partnership with local Fintech employers, this **free** intensive programme is designed to provide individuals with relevant skills and qualifications in-line with current local job vacancies in the sector. It will run over:

- **8 weeks** for **graduates** (FE/HE) with a Level 4+ qualification in a relevant sector subject area, or
- **10 weeks** for **non-graduates** who are employed or recently unemployed with a relevant core skill set, and are looking to reskill/upskill to enter the Fintech industry. The first two weeks of this 10-week programme include additional intensive modules in coding, so even if you are self-taught with a passion for programming and no formal qualifications in this area, we encourage you to apply.

All participants will receive a weekly £150 training allowance. Partnering local FinTech organisations are committing to interviewing all those who complete the required modules.

Recruitment is underway and individuals can apply on our website. Please see links below:
